

# SAS EDUCATION

**sas** best  
practices  
THOUGHT PROVOKING BUSINESS

## SAS® Analytics U is a global academic initiative

- Free SAS software.
- Free e-learning courses and tutorials.
- University partnerships.
- Engaging user communities.
- Opportunities to connect companies with analytic talent.

Learn more at [sas.com/analyticsu](https://sas.com/analyticsu).

For the next generation  
of analytics leaders.

# LINKING STUDENTS WITH OPPORTUNITIES

## SAS WORK PLACEMENT PROGRAM

### SAS Work Placement Program - Internships

- Program to link students with SAS skills to SAS customers for work experience over the summer break.
- Unique opportunity for students to put theoretical study into practice.
- Program enhances students professional development and future career opportunities, while also providing links to jobs upon completion.

*“When interviewers hear SAS and data mining, it’s a very big plus on the resume.”*

Dr. Alan Olinsjy

Professor of Applied Math, Bryant University

For the next generation  
of analytics leaders.

## FURTHER SAS EDUCATION

## TRAINING OPTIONS

[SAS Education](#) – Upskill and grow with us.

SAS local offices run a suite of public training courses in Auckland and Wellington, as well as having the ability to deliver onsite at Clients premise.

The Global Academic Program also runs complimentary train-the-trainer workshops. For example, Advanced Business Analytics, Programming/Reporting/Visualisation and Data Mining Workshops.

If you are interested in further training following this event, please let me know and I can assist to suggest the most suitable option.
